

Financial Protection - What, when and where?

When work undertaken has been funded through one of the government capital or grant schemes i.e., ECO4, SHDF, there are some mandatory requirements in relation to the financial protection that needs to be provided and evidenced for the measures installed which also require mandatory lodgement

While the approved 2-year policies are not currently mandatory, we highly recommend their adoption to assist with compliance and enhance your confidence in meeting elements of the requirements outlined in our Framework Operating Requirements, Section 10. These policies are designed to align with the standards and expectations we uphold, offering a pathway to best practices and peace of mind in your operations.

The simple diagram below will help you to ensure that you remain compliant with the requirements of those schemes when lodging the work in the TrustMark Retrofit Portal.
